Syllabus for Op-Ed Writing & Social Media Engagement Course

- “With the rise of digital and social media, op-eds (which stand for “opposite the editorial page” and which are also known as opinion pieces) are becoming an increasingly important way for experts to communicate about a range of political and social issues. This seminar will help you hone your own op-ed writing skills around an array of research-based issues, while providing a forum through which to consider how social media dynamics shape debate. Since clarity, precision and the use of logic and evidence are key components of the op-ed form and of constructive social media use generally, the course will serve to sharpen your digital citizenship skills and improve your overall writing.”

Books

- [*Public Influence: A Guide to Op-Ed Writing and Social Media Engagement*](#)
 - “How can twenty-first-century scholars and other experts engage with wider audiences beyond their peers? In *Public Influence*, Mira Sucharov walks readers through the ins and outs of op-ed writing and social media engagement. Enlivened with discussions of an array of hot-button issues and sharp analysis of the delicate dynamics of social media, this book is essential reading for anyone who wants to harness the opportunities of public engagement in this vital digital age.”
- [*Borders and Belonging: A Memoir*](#)
 - “In this gripping and honest memoir, Mira Sucharov shows what a search for a political and emotional home looks like. Sucharov suffered from childhood phobias triggered by her parents’ divorce, and she sought emotional refuge in Jewish summer camp. But three years spent living in Israel in her twenties shook her to her core. Ultimately, encounters with colleagues, students, friends and lovers force her to confront what it means to be able to write, advocate and teach about Israel/Palestine in a way that balances affirmation with authenticity.”

Major question more people should be thinking about

- What should be the relationship between our own communal allegiances and our commitment to political and other related principles?

Be on the lookout for:

- “Together with Omar Dajani I'm working on three projects: a book on Diaspora attachment to Israel/Palestine, a podcast on the past, present and future of Jaffa in light of Jewish-Palestinian shared society and refugee return, and a children's book introducing the history of the Nakba.”

 - “The President of the United States brags about sexually assaulting women, cheats on his wife with Playboy models and porn stars, and claims he's never asked for God's forgiveness. Yet, majorities of both white evangelical and mainline Protestants continue to support him. Why do Americans in these religious groups embrace a politician who seems to violate their basic standards of morality?... The answer, Andrew Whitehead and Samuel Perry argue, is a strain of thought that they call "Christian nationalism," the belief that the United States is - and should be - a Christian nation. At its heart, Whitehead and Perry argue, Christian nationalism is about a fight to preserve a particular kind of social order, ... Taking America Back for God illustrates the tremendous influence of Christian nationalism on debates about the most contentious issues dominating American public life.”
